STATE OF VERMONT
DEPARTMENT OF FINANCE AND MANAGEMENT
MONTPELIER, VERMONT 05609-0401

LETTER OF TRANSMITTAL

The Honorable Howard Dean, M.D., Governor
The Honorable Members of the Vermont General Assembly
The Citizens of Vermont

It is my pleasure to present to you the State of Vermont's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2001 as required by Title 32, Vermont Statutes Annotated, Section 182. This report has been prepared by the Department of Finance and Management and provides financial information regarding the State's operations during the 2000-2001 fiscal year as measured by the financial activity of the various funds.

This CAFR includes financial information about the State's Component Units. Component Units are legally separate organizations for which the State's elected officials are financially accountable, or for which the nature and significance of their relationship with the State is such that exclusion would cause this report to be misleading or incomplete. Examples of such organizations are the University of Vermont, the Vermont State Colleges, the Vermont Student Assistance Corporation, and the Vermont Economic Development Authority, among others.

To the best of our knowledge and belief, the data included in this report is accurate in all material aspects. This data is reported in a manner designed to present fairly the financial position and results of financial operations of the various funds, the General Long Term Debt Account Group, and component units of the State in accordance with Generally Accepted Accounting Principles.

The State's CAFR is reported in the following four major sections in accordance with criteria established by the Governmental Accounting Standards Board (GASB):

The Introductory Section which contains this transmittal letter, a list of key state officials, and an organizational chart of State Government.

The Financial Section which contains the State Auditor of Accounts' Independent Auditor's Report, General Purpose Financial Statements (combined financial statements and

notes thereto), combining financial statements, individual fund statements, and Component Unit combining statements.

The Supplementary Information Section which contains a ten year comparison of the General Fund and Special Revenue Funds' revenues by source and expenditures by function.

The Statistical Section which presents fiscal, social, and demographic information, generally on a multi-year basis.

The CAFR presents information on the financial position and operations of the state as one reporting entity. The various agencies, departments, boards, commissions, and funds which are governed by the State Legislature and/or constitutional officers comprise the State's "Primary Government" reporting entity and are included in this CAFR. These entities provide a full range of services including: construction of highways, bridges, and infrastructure; education; social and health services; public safety; conservation of natural resources; economic development; and recreation facilities and development.

ECONOMIC CONDITIONS AND OUTLOOK

The national economy is recognized to have been in recession since March of 2001 and while Vermont was, at first, slow to see the effects, it is clear that the malaise is now clearly affecting Vermont as well. Signs in the national economy would suggest that things may be bottoming out, and that recovery, if it has not already started, could be around the corner. The issue is really the rate of recovery and how recovery in Vermont matches or does not match the national recovery. Vermont has lost jobs and several machine manufacturers have gone out of business. At the same time, several critical employers have announced key contracts that will keep them staffed at current levels. IBM, Vermont's largest private employer, has retracted through a number of steps including: (1) first drawing back contracts to do work in house, (2) eliminating overtime, and (3) finally announcing 501 permanent job reductions. Clearly the environmental change in the equity markets is having an effect on rates of personal income growth in Vermont and is therefore, negatively affecting personal income tax receipts.

Considering the economic pressures present nationally, Vermont has held up reasonably well through February, though the uncertainty intensifies as the fiscal year matures. Three times Vermont has adjusted its revenue forecasts for the fiscal year 2002 year end. The effect has been to lower expectations in the General Fund by nearly \$49.5 million, the Education Fund by \$5.7 million, and the Transportation Fund by \$5.7 million. With each reduction further recommendations for reduced spending have also been made. Additionally, Vermont has been able to replace some general fund loss with the use of fund balances from various

accounts. These actions have enabled the State to keep stabilization reserve balances intact as insurance against further decline in revenues in the final quarter of the year.

Echoing much of the nation, Vermont has continued to experience, through the recession, strong consumptive activity in housing and automobiles. Tax receipts in the Rooms and Meals and Sales and Use Tax have been relatively strong despite income retreating. The State is concerned about the contradictory nature of these trends.

Revenue stability is dependent not only on the economy improving, but on the stabilizing of the Vermont income tax structure in the wake of last year's Federal tax changes. While a temporary fix was installed last June for calendar year 2001 and 2002, a more permanent structure needs to be approved and the General Assembly is currently considering proposals that will leave a neutral revenue stance for Vermont as it adjusts to the Federal tax law changes.

MAJOR INITIATIVES

While approaching fiscal year 2002 with trepidation as it anticipated a slowing economy, Vermont closed fiscal year 2001 with positive results. Various General Fund reserves amount to nearly \$83 million, and with reserves in the Education fund and Transportation Fund the State held reserves as of June 30 of over \$113 million. Vermont General Fund revenues through the end of the fiscal year amounted to \$929.23 million. With General Fund appropriations of \$867.6 million the State's year-end position was a positive one. As the Department of Taxes was behind in processing personal income tax returns and associated refunds that reduce revenues, \$33.4 million of tax revenue was deferred to cover estimated 2000 tax year refunds still to be processed. After making the adjustment for unprocessed refunds, the General fund revenues net of appropriations were \$28.2 million. With \$27.29 million moved to reserves, transferred to other funds, or appropriated as a contingency, the State finished fiscal year 2001 with an undesignated surplus of \$4.34 million. The unprocessed returns have now been processed and the actual amount required from the deferred \$33.4 million was \$29.33 million leaving the remaining balance of \$4.1 million to be recognized as revenue. It should be noted that the above deferral for unprocessed returns is not expected to be necessary this year.

Vermont has been able with the benefit of surpluses in the past several years to address many needs through the judicious use of these surpluses for one-time and capital needs. This has afforded Vermont the opportunity to reduce overall debt and to address some issues typically difficult to accomplish in hard times. Vermont's strategy of bifurcated spending, committing

surpluses to other than base needs has positioned it well to weather the downturn, but the era of surpluses and additional one-time spending plans would appear to be in the past. Vermont's bond ratings were reviewed during the fall in preparation for a \$51 million bond offering. The three major bond rating firms reaffirmed Vermont's AA+, Aa1, and AA+, the highest of any New England state.

The General Assembly is currently considering the FY2003 budget proposed by the Governor. The budget does not include any new programs and initiatives save development of a special program in the Agency of Human Services to be administered by the Secretary's office. \$500,000 has been isolated from other programs to be used to address the needs of children with serious and multiple needs who otherwise fall through the cracks of current program definitions. Additionally, the budget proposes the elimination of some optional Medicaid programs and benefits. Overall, the budget proposed is within the limits of the reduced revenue expectations. To meet this test, there are significant adjustments faced in Correction spending, Medicaid, and education. Additionally, the Transportation budget reflects significant reductions in paving and town projects due to the combined causes of reduced revenue generation and a pause in advanced spending of Federal transportation allocations

FINANCIAL INFORMATION

Internal Controls:

The management of the State is responsible for establishing, designing, and maintaining internal controls to ensure that the State's assets are protected from loss, theft, or misuse; and that the financial statements are prepared and presented in accordance with generally accepted accounting principles.

The adequacy of internal controls has been and is a major consideration when developing the state's financial accounting and reporting systems. Internal controls are designed to provide reasonable, but not absolute assurance that the above objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefit to be received from its implementation, and that the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Controls:

The Department of Finance and Management controls the overall levels of expenditures as compared to their appropriated (budgeted) amounts. This control is necessary to ensure that the spending levels as authorized by the Legislature are not exceeded without proper approval. A detailed explanation of Vermont's budgetary process can be found in Section D of Note 1 to the financial statements.

General Governmental Functions:

General Government Functions are accounted for in the governmental fund types that include the general, special revenue, and capital projects funds.

The State's most significant sources of revenues in the General Fund (budgetary basis) are the personal income tax, sales and use tax, and the meals and rooms tax. The following chart presents comparable budgetary basis revenue receipts for the fiscal years 2001 and 2000 (dollars in 1000's).

	<u>2001</u>	<u>2000</u>
Personal Income Tax	\$450,202	\$431,668
Sales and Use Tax	215,099	216,523
Meals and Rooms Tax	79,296	75,163
Other Revenues	<u>151,249</u>	<u>162,119</u>
	<u>\$895,846</u>	<u>\$885,473</u>

The State's most significant areas of expenditures from the General Fund (budgetary basis) are in Human Services and General Education. The following chart compares these expenditures on a budgetary basis for fiscal years 2001 and 2000 (Dollars in 1000's).

Human Services	\$308,055	\$291,039
General Government	53,341	42,893
Protection	53,711	48,538
General Education	41,638	51,231
Other Expenditures	<u>97,308</u>	<u>97,321</u>
	<u>\$554,053</u>	<u>\$531,022</u>

The largest activity for both years contained in the "Other Expenditure" category is Debt Service payments that were \$68.38 million in FY2001 as compared to \$68.69 million in FY2000.

Enterprise Funds:

We added the financial activity of the Vermont Adaptive Equipment Revolving Fund whose activity was previously reported in the Special Funds. We also reclassified the Municipal Equipment Loan Fund from the Internal Service Funds to the enterprise Funds. The Vermont Home Mortgage Guarantee Board's financial activity was removed from the Enterprise Funds as the entity is now defunct. Combined operating results for the State's Enterprise Funds on a GAAP basis remained about the same in FY2001 as it was in FY2000. Operating revenues grossed \$115.79 million, an increase of \$7.88 million or 7.30% as compared to FY 2000. An increase of \$6.2 million in lottery revenues and \$1.85 million in Liquor Control's revenues accounted for almost all of this increase. Total operating expenses for FY2001 were \$99.18 million, an increase of \$10.97 million or 12.44% when compared to FY2000. Increases of \$2.10 and \$8.98 million in Liquor Control's and the Lottery Commission's operating expenses respectively accounted for almost all of this increase.

Cash and Investments:

Cash deposits are managed by the State in accordance with the provisions of Title 32, Vermont Statutes Annotated, Sections 431-434, which defines the types of investments and any limits which may apply. The State Treasurer pools substantially all cash and investments of governmental, proprietary, and agency funds, except for separate cash and investment accounts whose segregation is mandated by law, in order to maximize interest earnings. Separate cash and investment accounts are maintained for pension funds.

The Primary Government's level of cash and cash equivalents as defined in Section E of Note 1 to the financial statements increased approximately \$50.9 million or 7.37% as compared to FY2000.

Debt:

The State may issue general obligation bonds and notes when authorized by the legislature and may guarantee the obligations of other entities and political subdivisions. Bonds may also be issued to defease certain outstanding obligations. Once authorized by the Legislature, the State Treasurer, with the approval of the Governor, may issue the bonds. At year-end, the State's general obligation bonds were rated Aa1 by Moody's Investor's Service, AA+ by Standard and Poors, and AA+ by Fitch's Investor Service, Inc. The state had approximately \$480.4 million in General Obligation Bonds and Notes outstanding at year-end, down from \$527.3 million at June 30, 2000. Additionally, the State has incurred \$152.8 million in direct liability for various other general long-term obligations, up from \$151.4 million at June 30, 2000. Approximately \$770,000 of this increase is due to an increase in the State's unfunded pension obligation.

Self Insurance:

The State generally assumes substantially all risks associated with Worker's Compensation, Employee Liability, Employee Health and Life, and General Liability under state law.

However, the state has minimized its exposure in several of these areas by either purchasing commercial insurance coverage or by limiting benefit claim amounts. Note 16 to the financial statements contains a more comprehensive discussion of these self-insurance programs.

Retirement Plans:

Total net assets at fair value available for benefits being held by the State's three defined benefit retirement plans and one defined contribution plan reached \$2.55 billion at June 30, 2000, an increase of \$190.4 million or 8.1% from June 30, 1999. Total net assets are defined as total assets minus any liabilities the fund(s) may have and are called "Net Assets (At

Fair Value) Held in Trust For Pension Benefits" on the financial statements.

Audit:

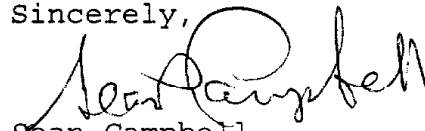

An independent audit was performed by the independently elected State Auditor of Accounts whose "Independent Auditor's Report" is included in the financial section of this CAFR.

The audit described in the "Independent Auditor's Report" above is not intended to meet all the requirements of the Federal Single Audit Act of 1996. Rather, the Single Audit Reports for the State are issued under separate cover.

Acknowledgements:

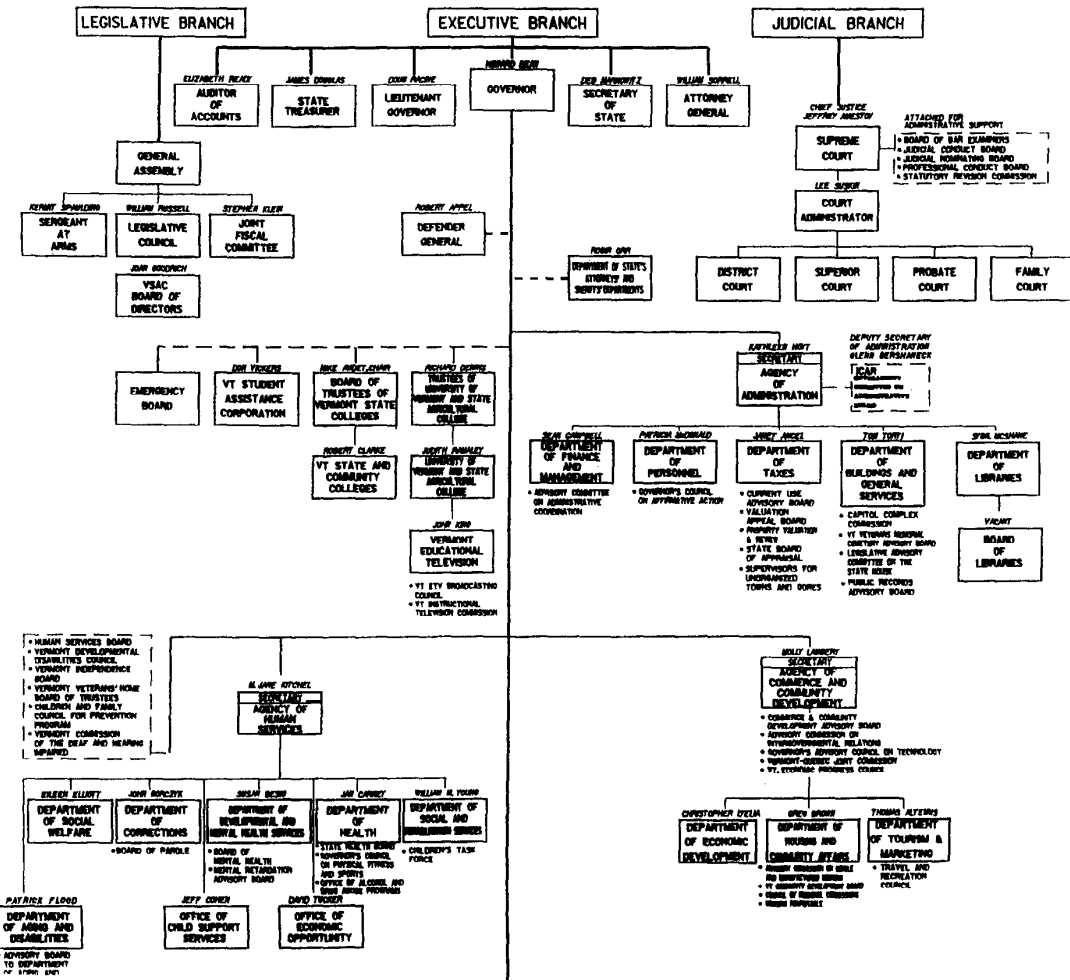

The preparation of this report would not have been possible without the work of dedicated staffs within the Department of Finance and Management, the Treasurer's Office, the State Auditor of Accounts' Office, and the support of all state agencies and component units, the Legislature, and the Judiciary. We welcome all inquiries concerning any of the information contained herein.

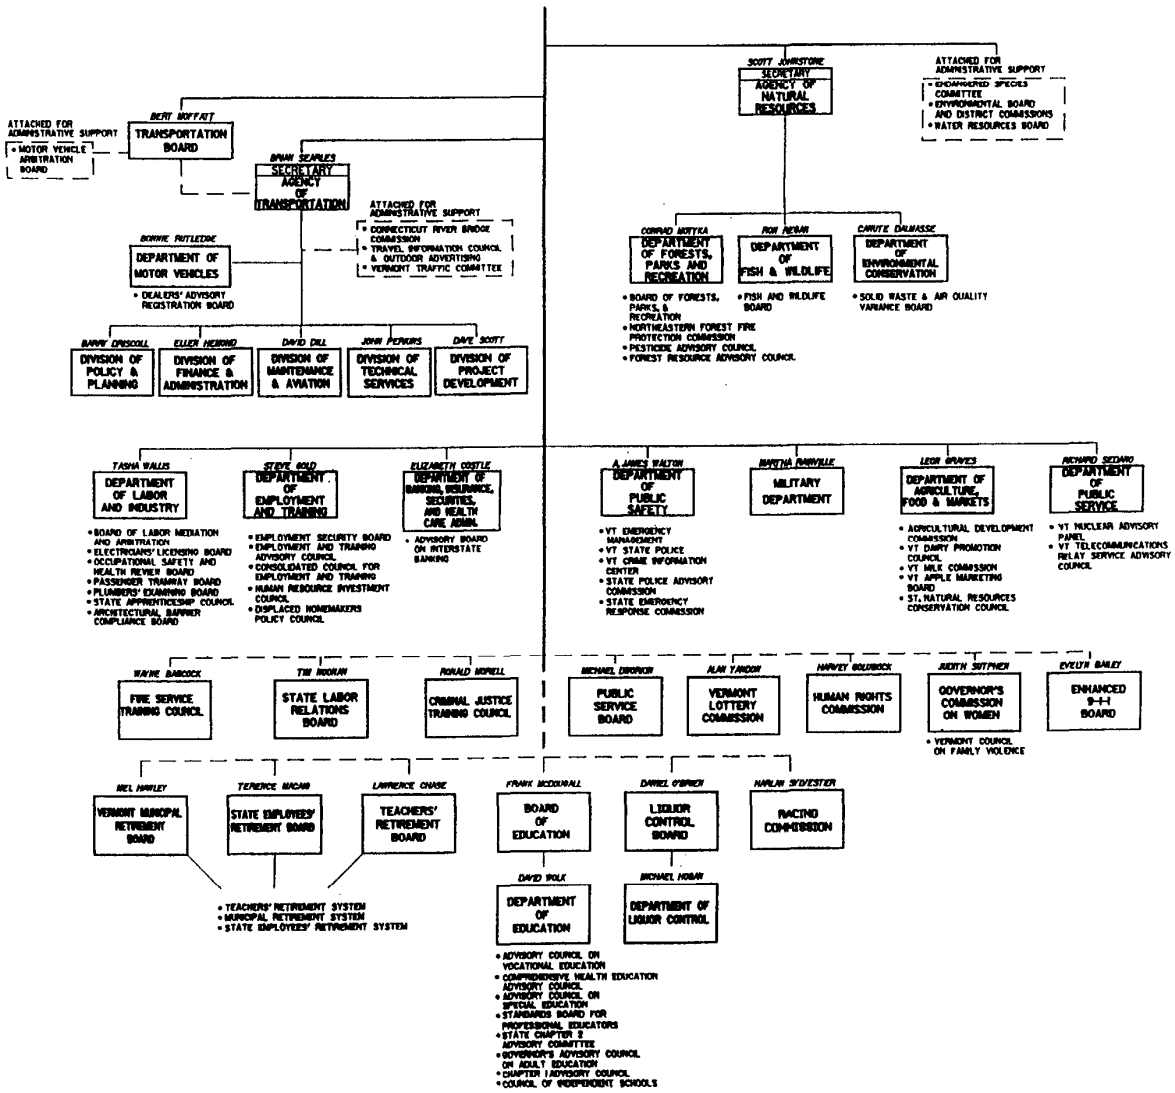

Sincerely,

A handwritten signature in black ink that reads "Sean Campbell". The signature is written in a cursive style with a large, prominent "S" at the beginning.

Sean Campbell
Commissioner

State House
Montpelier, Vermont

We have audited the accompanying general purpose financial statements of the State of Vermont, as of June 30, 2001 and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express an opinion on these statements based on our audit. We did not audit the financial statements of certain entities that aggregate the following percentages of total assets and revenues:

	Percentage of	
	Total Assets - Total Revenues	
Combined Balance Sheet – All Fund Types, Account Group and Discretely Presented Component Units:		
Special Revenue Funds	30.7%	N/A
Enterprise Funds	38.4%	N/A
Discretely Presented Component Units	100.0%	N/A
Trust and Agency Funds	10.9%	N/A
Combined Statement of Revenues, Expenditures and Changes In Fund Equity – All Governmental Fund Types, Expendable Trust Funds Discretely Presented Component Units:		
Special Revenue Funds	N/A	1.2%
Expendable Trust Funds	N/A	69.2%
Discretely Presented Component Units	N/A	100.0%

	Percentage of	
	Total Assets	Total Revenues
Combined Statement of Revenues, Expenditures and Changes In Fund Equity – All Proprietary Fund Types, Non Expendable Trust Funds and Discretely Presented Component Units:		
Enterprise Funds	N/A	70.2%
Discretely Presented Component Units	N/A	100.0%
Combined Statement of Current Revenue Funds, Expenditures and Other Changes:		
University of Vermont	N/A	100.0%
Vermont State Colleges	N/A	100.0%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for those entities, is based solely on the reports of the other auditors.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the State Environmental Revolving Fund (blended into the Federal Revenue Fund) and the Vermont Sustainable Jobs Fund (a discretely presented component unit) were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

As discussed in Note 1, a General Fixed Asset Account Group is not presented in the accompanying general purpose financial statements as required by generally accepted accounting principles because the State does not maintain such records.

In our opinion, based on our audit and the reports of the other auditors, except for the effects on the financial statements of the omission of the General Fixed Asset Account Group, as described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the State of Vermont as of June 30, 2001, and the results of its operations and cash flows of its proprietary, nonexpendable trust fund types and discretely presented component units for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining, individual fund and account group financial statements listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Vermont. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, based upon our audit and the reports of other auditors, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

We did not audit the data included in the Introductory and Statistical Sections of this report and, accordingly, express no opinion thereon.

In accordance with *Government Auditing Standards*, we have also issued a report, dated March 20, 2002, on our consideration of the State's internal control over financial reporting and our tests of its compliance with certain laws and regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Elizabeth M. Ready
State Auditor

STATE OF VERMONT
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2001

Note 1: SIGNIFICANT ACCOUNTING POLICIES:

A. Financial Reporting Entity:

For financial reporting purposes, the State of Vermont includes all funds, account groups, departments and agencies, commissions, and authorities of the State as well as legally separate agencies, commissions, authorities, and colleges and universities over which the State's executive, legislative and judicial branches exercise oversight responsibility. Oversight responsibility, as defined by the Governmental Accounting Standards Board (GASB)'s Codification of Governmental Accounting and Financial Reporting Standards, Section 2100 includes the following considerations:

- ◆ Financial interdependency
- ◆ Selection of governing authority
- ◆ Designation of management
- ◆ Ability to significantly influence operations
- ◆ Accountability for fiscal matters

In addition, the following criteria were considered during the evaluation of the legally separate entities for inclusion as Component Units:

- ◆ The scope of public services as to whether its activity benefits the State and/or its citizens, and whether the activity is conducted within the geographic boundaries of Vermont and is generally available to Vermont residents.
- ◆ The existence of any special relationships regardless of whether the government exercises oversight responsibilities that would cause the State's financial statements to be misleading or incomplete if the entity's financial activity were omitted.

As required by generally accepted accounting principles, these financial statements present the State of Vermont's primary government, which consists of all the organizations that make up its legal entity, and its component units. Complete financial statements issued by the individual component units as indicated below, can be obtained from their respective administrative offices. Authorizing statutes and reporting fund type classifications have been included where applicable.

1. Blended Component Units

The following legally separate organizations provide services entirely or almost entirely to the State or otherwise exclusively or almost exclusively benefit the State. Therefore, these organizations' balances and transactions are reported as though they were part of the primary government.

a) Vermont Low Level Radioactive Waste Authority
(Special Revenue Fund) (10 VSA 7010 – Repealed)

The Vermont Low Level Radioactive Waste Authority was created by the Vermont Legislature to manage the collection, handling and disposal of low level radioactive waste generated through the operation of nuclear power plants (primarily Vermont Yankee) and as by-products of medical research and industrial wastes in Vermont. It was terminated by Section 4 of Act 137 of the Vermont General Assembly, 1994 Adjourned Session effective June 30, 1994 in anticipation of Vermont becoming a member of the Texas Low Level Radioactive Waste Compact upon the Compact's ratification by the United States Congress. As of June 30, 2001, the Texas Low Level Radioactive Waste Authority, which was due to be the successor organization to the Vermont Low Level Radioactive Authority (statutorily terminated at June 30, 1994) has been ratified by the United States Congress but no site in Texas has been identified.

2. Discretely Presented Component Units

These component units are entities which are legally separate from the State, and which are either financially accountable to the State or, whose relation with the State is such that exclusion would cause the state's financial statements to be misleading or incomplete. They are reported on three separate discrete columns that are labeled (1) Component Units - Other, (2) Vermont State Colleges, and (3) University of Vermont, to emphasize their separation from the State's primary government.

a) Component Units - Other

This category includes the following organizations:

- 1) Vermont Student Assistance Corporation
(Proprietary Fund Type) (16 VSA 2861)

The Vermont Student Assistance Corporation (VSAC) was established by the General Assembly to provide opportunities for persons who are residents of Vermont to attend colleges or other institutions of higher education by awarding grants and by making, financing, servicing, and guaranteeing loans to qualifying students. VSAC issues audited financial statement under separate cover. For further information, contact their administrative offices at the Champlain Mill, P.O.Box 2000, Winooski, Vermont. 05404-2601.

- 2) Vermont Educational and Health Buildings Financing Agency
(Governmental Fund Type) (16 VSA 3852)

This is a non-profit entity which finances or assists in the financing of projects for eligible educational or health related entities. It has a December 31 (annual) year-end and issues audited financial statements under separate cover. For further information, they can be contacted at 2 Spring St., P.O. Box 1219, Montpelier, Vermont. 05601-1219.

- 3) Vermont Housing and Conservation Board (VHCB)
(Governmental Fund Type) (10 VSA 311)

The Vermont General Assembly created and charged this non-profit organization with the two goals of (1) creating affordable housing for Vermont residents, and (2) conserving and protecting Vermont's agricultural land, historical properties, important natural areas, and recreational lands. VHCB issues audited financial statements under separate cover. Additional information may be obtained by contacting them at 136 Main St., Drawer 20, Montpelier, Vermont. 05620-3501

- 4) Vermont Economic Development Authority
(Proprietary Fund Type) (10 VSA 213)

The Vermont Economic Development Authority (VEDA), formerly the Vermont Industrial Development Authority, was created by the Vermont Legislature for the purpose of promoting economic prosperity in the State by (1) directly financing eligible businesses and projects, including manufacturing, agricultural, and travel and tourism enterprises; and (2) operating programs which provide eligible borrowers with access to capital.

In 1983, VEDA incorporated a wholly owned Small Business Administration (SBA) Section 503 Certified Development Corporation (VT503) which is involved in providing loans under the "REAL and REAL II Programs" under the Vermont Intermediary Relending Programs.

During fiscal year 1995, the Authority was authorized by the Vermont General Assembly to incorporate a non-profit corporation to operate as the Vermont Small Business Development Corporation (VSBDC). The Authority contributed \$50,000 to the capital of the VSBDC in order to secure a \$1 million Farmers Home Administration Intermediary Relending Program loan.

Effective June 30, 1999 the Vermont General Assembly repealed the statute governing the Agricultural Finance Program ("AFP") and the Debt Stabilization Program ("DSP") and authorized the Authority to incorporate the Vermont Agricultural Credit Corporation ("VACC") and consolidate the assets and liabilities of both the AFP and DSP into it. The General Assembly appropriated \$3.5

million to further capitalize the VACC.

VEDA also administers the State Infrastructure Bank and the Drinking Water State Revolving Loan Fund – Private Loans. These two funds are administered for the benefit of the State and are combined in the Authority's Agency Fund.

Audited financial statements or additional information for any of these entities may be obtained by contacting VEDA, 56 East State Street, Montpelier, Vermont 05602.

5) Vermont Municipal Bond Bank
(Governmental Fund Type) (24 VSA 4571)

The Vermont Municipal Bond Bank (VMBB) was established by the Vermont Legislature for the purpose of fostering and promoting adequate capital markets and facilities for borrowing money by governmental units of the State of Vermont for financing of public improvements or other purposes. The Bank is authorized to carry out this function by borrowing money and by issuing its own bonds and notes to obtain funds in order to purchase bonds and notes issued by local governmental units. It has a December 31 year-end and issues audited financial statements under separate cover.

VMBB also administers the Special Environmental Revolving Fund in accordance with 24 VSA 4753(b). This fund has a June 30 year-end and issues its own audited financial statements. For reporting purposes its financial statements have been blended into the State's Federal Fund Financial Statements in this CAFR.

Further information may be obtained by contacting VMBB at 2 Spring Street, P.O. Box 1219, Montpelier, Vermont 05601-1219.

6) Vermont Center for Geographic Information
(Governmental Type Fund) (10 VSA 121)

The Vermont Legislature established the Vermont Center for Geographic Information and charged it with creating a comprehensive strategy for the development and use of a geographic information system. Audited financial statements may be obtained by contacting them at the University of Vermont, 206 Morrill Hall, Burlington, Vermont 05405-0106.

7) Vermont Sustainable Jobs Fund, Inc
(Proprietary Fund Type) (10 VSA 326)

The Vermont legislature established a jobs program and directed that the Vermont Economic Development Authority (VEDA) set up a non-profit corporation to implement the program. Under the provisions of the above statute, VEDA is directed to establish policies and procedures in order to fulfill the goals listed in 10 VSA 326(a). Audited financial statements for the Vermont Sustainable Jobs Fund Inc may be obtained by contacting the Vermont Economic Development Authority, 56 East State Street Montpelier, Vt. 05602.

8) Vermont Transportation Authority (VTA)
(Proprietary Fund Type) (29 VSA 701)

The Vermont Transportation Authority was created by the Vermont Legislature pursuant to the acquisition, operation, or support of an authorized transportation facility as defined in 29 VSA 701, and as specifically authorized by the Vermont General Assembly. Its only current activity is managing the commuter rail line running from Shelburne, Vermont to Burlington, Vermont. In previous CAFRs, it was reported as a blended component unit. For fiscal year 2001 its discretely presented financial statements were not available and so have not been included in this report. In the future, it will issue audited financial statements that may be obtained by contacting it at 1 Main Street, Burlington, Vermont 05401.

9) Vermont Veterans' Home
(Proprietary Fund Type) (No. 180 of Acts of 1884)

The Vermont Veterans' Home was originally chartered in 1884 by the Vermont Legislature

and officially incorporated on November 24, 1884. The home is overseen by a Board of Trustees that are appointed by the Governor. They issue their own audited financial statements. Additional information may be obtained by contacting the home at 325 North Street, Bennington, Vermont 05201.

b) University of Vermont (16 VSA 2281)

This reporting entity includes the financial activity of both the University of Vermont and the State Agricultural College. Its financial statements, which have been issued under separate cover, have been prepared on the accrual basis in accordance with generally accepted accounting principles as promulgated in the Industry Audit Guide for Colleges and Universities issued by the American Institute of Certified Public Accountants. Additional information may be obtained by contacting the University's administrative offices.

c) Vermont State College System (16 VSA 2171)

This reporting entity includes financial activity for the following organizations:

- 1) Community College of Vermont
- 2) Castleton State College
- 3) Johnson State College
- 4) Lyndon State College
- 5) Vermont Technical College
- 6) Vermont Interactive Television
- 7) Offices and Services

It issues audited financial statements under separate cover which are prepared on the accrual basis using the fund method of accounting. Additional information may be obtained by contacting the Office of the Chancellor, Vermont State Colleges, P.O. Box 359, Waterbury, Vermont 05676.

3. Joint Ventures

A joint venture is a legal entity or other contractual arrangement that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or responsibility. The following list of entities shown with the statutes authorizing the State's participation has been classified as joint ventures. The financial activities of these organizations have not been included in the State's financial statements; however, see Note 15 for a summary of the financial activity of the Tri-State Lotto Commission.

- a) Connecticut River Atlantic Salmon Committee (10 VSA 4654)
- b) Connecticut River Valley Flood Control Commission (10 VSA 1153)
- c) New England Board of Higher Education (16 VSA 2692)
- d) New England Interstate Water Pollution Control Commission (10 VSA 1333)
- e) Northeastern Forest Fire Protection Commission (10 VSA 2503)
- f) Tri-State Lotto Commission (31 VSA 673)
- g) Texas Low Level Radioactive Waste Disposal Compact (10 VSA 7013)

4. Related Organizations

Related Organizations are separate legal entities for which the primary government is accountable only because it appoints a voting majority of the board but for which it is not financially accountable. The following entities along with their authorizing statutes have been classified as related organizations and their financial activity has not been included in the State's financial statements.

- a) Vermont State Housing Authority (24 VSA 4005)
- b) Vermont Housing Finance Agency (10 VSA 611)

5. Excluded Organizations

The following entities have been determined not to be part of the reporting entity after applying the criteria of GASB Statement No. 14: "The Financial Reporting Entity"

- a) Vermont Council on the Humanities
- b) Vermont Council on the Arts
- c) Vermont Historical Society
- d) Vermont Public Power Supply Authority

These organizations are not included in the reporting entity because they are legally separate entities and the voting majority of their governing boards are not appointed by the State. They are not fiscally dependent on the State's primary government and exclusion from the financial reporting entity would not render Vermont's financial statements incomplete or misleading.

B. Fund Accounting and Fund Structure:

The State of Vermont's Accounting System is organized and operated on a fund basis. A fund is defined as an accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying-on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three fund types and one account group. The general characteristics of the fund types and account group are as follows:

1. Governmental Fund Types:

a) General Fund: The General Assembly has established the General Fund as the basic operating fund of the State. As such, the General Fund is used to finance all expenditures for which no special revenues have otherwise been provided by law. All revenues received by the State and not otherwise required by law to be deposited in any other designated fund or used for any other designated purpose are deposited in the General Fund. Unexpended and/or unencumbered appropriation balances will, unless otherwise directed by law, revert to fund balance at the end of the fiscal year.

b) Special Revenue Funds: Special Revenue Funds are used to account for revenues specifically earmarked to finance only particular or restricted programs and activities and include the following:

1) Transportation Fund: Transportation Fund revenues are used primarily for preservation, maintenance, and improvements to the transportation infrastructure, including highways, bridges, railroads, air, public transportation, and other related activities, as well as for maintenance and staffing of highway rest areas, construction of transportation capital facilities, and debt service for transportation facilities. In addition, 24.5% of the previous year's appropriations may be appropriated for support of the general government. This percentage decreases in fiscal year 2002 and beyond to 23%. The principal sources of revenue in this fund are motor fuel taxes, motor vehicle purchase and use tax, motor vehicle license and registration fees, traffic ticket revenue, other statutorily specified revenues, as well as reimbursements from the federal government for federal aid transportation projects.

2) Education Fund: This Fund was established by Act 60 and codified as 16 VSA 4025 to equalize statewide education funding requirements. Expenditures authorized for funding are codified in 16 VSA 4025(b) and may include only legitimate items of current education expense. Funding is described in 16 VSA 4025(a) and includes the following sources: Statewide Education Property Tax; State's portion of Local Share Property Tax; State Lottery revenues; percentages of the revenue from the Meals and Rooms Tax, Corporate Income Tax, Motor Fuel Tax on gasoline, Bank Franchise Tax, Purchase and Use Tax; and other reimbursements and fees. An Education Fund Budget Stabilization Reserve has also been established in accordance with the terms of 16 VSA 4026.

3) Fish and Wildlife Fund: Receipts are restricted by statute and can only be used for fish and wildlife purposes. The principal sources of revenue are license fees and federal grants.

4) Federal Revenue Fund: All federal grant receipts are recorded in the Federal Revenue Fund except for those federal funds specifically designated for transportation related or fish and wildlife purposes. Grants of the latter types are recorded in the State's Transportation Fund or Fish and Wildlife Fund, respectively.

5) Special Fund: This fund accounts for proceeds or specific revenues not categorized above that are legally restricted to expenditures for specified purposes.

- c) **Capital Projects Funds:** These funds, consisting of the General Bond Fund and the Transportation Bond Fund, account for capital improvement expenditures. These appropriations are or will be primarily funded by the issue of State bonds.

2. Proprietary Fund Types:

- a) **Enterprise Funds:** These funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises. The State's intent in these funds is to recover the cost (expenses, including depreciation) of providing goods or services to the public primarily through user charges. In some instances this fund type is utilized to periodically determine the revenues earned, expenses incurred, and/or that the amount of net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.
- b) **Internal Service Funds:** These funds are used to account for the financing of goods or services provided by one state department or agency to other state departments or agencies, or to other governmental units. The objective is not to make a profit but rather to recover, over a period of time, the total cost of providing the goods and services.

3. Fiduciary Fund Types:

These funds account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governmental units and other funds. These funds include the following:

- a) **Pension Trust Funds:** These funds are used to account for the activities for the state-administered retirement systems.
- b) **Non-expendable Trust Funds:** These funds are used to account for the activities of trusts whose income is used to fund the trust purpose but whose principal is to be maintained intact.
- c) **Expendable Trust Funds:** These funds are used to account for the activities of trusts whose principal and income may be used for purposes of the trust.
- d) **Agency Funds:** These funds are used to account for amounts held in trust for others. Agency Funds include such accounts as federal and state withholding taxes and other payroll deductions of state employees and applicable state matching contributions.

4. Account Groups:

- a) **General Long Term Debt Account Group:** This account group is a self balancing set of accounts set up to provide management control and an accountability list of the unmatured general long term debt and other obligations of the State. This account group is not a fund and it does not measure the results of operations. It is concerned only with the measurement of financial position. The State of Vermont's General Long Term Debt Account Group includes long-term liabilities for the retirement of general obligation bonds, compensated leave, and net pension obligation.

- b) **General Fixed Assets Account Group:** Contrary to generally accepted accounting principles, no accounting records are maintained and no statements are presented for the general fixed assets for governmental fund type operations of the State of Vermont.

C. Basis of Accounting:

1. All Governmental Funds, Expendable Trust Funds, Agency Funds, and Governmental Fund Type Discretely Presented Component Units:

These funds are accounted for utilizing the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the revenue can be reasonably determined and "available" means the amounts are collectible within the current period or soon enough thereafter to pay the liabilities of the current period. Except for personal income taxes and federal grant revenues, the State considers all revenues available if they are collected within 60 days after fiscal year end. At June 30, 2001, the State considered as available, \$40 million of payments for personal income taxes to be received by the State during the period January 1 to April 15, 2002. Federal grant revenues are recognized when the qualifying expenditures have been incurred. Revenue received by the State before it has a legal claim to it is recorded as deferred revenue.

Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due, and certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources. In accordance with Section 1600.110 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, the State recorded, at June 30, 2001 as a current liability, \$42.8 million of estimated personal income tax refunds which will be paid out during fiscal year 2002.

2. Proprietary Funds, Pension Trust Funds, Non-expendable Trust Funds and Discretely Presented Proprietary Fund Type Component Units:

These funds are accounted for utilizing the flow of economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred.

The State's Proprietary Funds have elected not to apply standards issued by the Financial Accounting Standards Board (FASB) after November 30, 1989. The proprietary funds have applied all applicable pronouncements issued by the Governmental Accounting Standards Board (GASB).

3. University Of Vermont (UVM) and The Vermont State College System (VSC):

These entities account for their activity using the accrual basis of accounting in accordance with generally accepted accounting principles set forth for public colleges and universities. VSC has elected not to apply standards issued by the Financial Accounting Standards Board (FASB) after November 30, 1989.

4. GASB Statement # 33

In December 1998 the Governmental Accounting Standards Board issued statement #33 –Accounting and financial reporting for non-exchange transactions which establishes accounting and financial reporting for non-exchange transactions. This statement establishes standards for determining the timing of recognition of non-exchange transactions in the financial statements. Non-exchange revenues include Derived Tax Revenues such as sales and income taxes; Imposed Non-exchange Revenues such as property taxes; Government Mandated Non-exchange Transactions such as federal programs that state or local governments are required to perform; and Voluntary Non-exchange Transactions such as certain grants and private donations. The State adopted provisions of this statement for the Year ended June 30, 2001.

D. Budgetary Process:

The head of every State department, board or commission, and any officer or individual having in charge any activity for which funds are appropriated by the General Assembly, on or before September 1, preceding each biennium, is required to file with the Commissioner of Finance and Management statements showing in detail the amounts appropriated and expended for both the current and preceding fiscal year and the amount estimated for such activity to be necessary for the current and preceding fiscal year and the amount estimated for such activity to be necessary for the ensuing two fiscal years. The Commissioner of Finance and Management and the Secretary of Administration are then required to submit to the Governor by November 15, preceding each biennium, the estimates as received together with any other estimates, for the two ensuing fiscal years. The Governor submits to the General Assembly, no later than the third Tuesday of every regular session, a budget which shall embody estimates, requests and recommendations for appropriations or other authorizations for expenditures from the state treasury for at least the succeeding fiscal year. The General Assembly then enacts into law an appropriations act that must be approved by the Governor before expenditures can be made. In recent years in accordance with Act 205 of 1979 Section 125, it has been the practice of the Governor to submit an annual budget and the General Assembly to enact appropriations on an annual basis.

Budgets are prepared and appropriated on the cash basis usually at the program level. The Governor may amend appropriations within limits established by statute. The Agency of Administration maintains budgetary control by major object (i.e. personal services, operating expense, etc.) at the appropriation level. General, Transportation, Education, Special and Fish and Wildlife Funds' appropriation balances revert to fund balance at the end of each fiscal year unless authorized to be carried forward to the following year by legislative act. Unexpended balances of capital projects and federal revenue funds are available for expenditure in the following fiscal year.

The State also utilizes, to a limited degree, encumbrance accounting for governmental funds under which certain purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable unexpended appropriation. Encumbrances outstanding at year-end are reported as reservations of fund balance. Reported encumbrances do not include all commitments.

E. Cash and Cash Equivalents:

Cash balances for most funds are deposited with the State Treasurer, except for the Pension Trust Funds, Capital Projects Funds, and the Single Deposit Investment Account Fund. Cash balances deposited with the State Treasurer are pooled together and available amounts beyond immediate cash requirements are invested in short term investments.

Income earned on the short-term investments is allocated to those funds authorized to receive it with the balance of the allocated income going to the General Fund.

Cash and cash equivalents as reported in the financial statements, include bank accounts, impress cash, short-term investments with an original maturity of three months or less such as certificates of deposit, commercial paper, federal government agencies discount notes, money market accounts, and repurchase agreements.

F. Receivables:

Receivables in the governmental funds consist primarily of accrued taxes, federal grants receivable, and notes receivable from component units. Personal income taxes receivable are primarily taxpayer-assessed taxes owed by the taxpayer for the period ended June 30, and which were received by the State during the following 10 months. These revenues are susceptible to accrual in accordance with measurable and available criteria under the modified accrual basis of accounting. Federal receivables are amounts due from the federal government to reimburse the State for expenditures incurred pursuant to federally funded programs. Notes Receivable in the General Fund consist primarily of advances in the form of Vermont Economic Development Authority (VEDA) notes purchased by the State. See Note 12 – Contingent and Limited Liabilities for further information. No allowances for non-collectible accounts have been recognized in these receivables as taxes receivable are substantially based on subsequent collections and the collection of amounts due from the federal government are reasonably assured.

The "Other Receivable" balance under the Fiduciary Fund Types – Trust and Agency column includes \$104,154,683 for the Vermont State Retirement Fund, \$15,070,562 for the Vermont Teacher's Retirement Fund and \$5,281,720 for the Vermont Municipal Employees Retirement Fund. These receivable amounts represent monies due to the respective pension trust funds for investments sold prior to June 30, 2001, but for which the receipts were received subsequent to June 30, 2001.

G. Inventories:

Inventories of materials and supplies of governmental funds are recorded as expenditures when purchased. Inventories of the proprietary fund types are generally valued at the lower of average cost or market.

H. Fixed Assets and Depreciation:

General fixed assets are recorded as expenditures in the governmental funds when the assets are acquired. No accounting records are maintained and no statements are presented for governmental general fixed assets.

Fixed assets in the proprietary funds are capitalized at cost when acquired. Depreciation is calculated and recorded using the straight-line method and estimated useful lives of 20-50 years for buildings and improvements and 3-24 years for equipment, machinery, and furnishings.

When fixed assets are disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in income for the period. Significant renewals and improvements that increase the life expectancy are capitalized and deductions are made for retirements resulting from the renewals or improvements.

I. Payables:

The accounts payable amount consists of operating liabilities incurred prior to fund year-end (usually June 30) for which payment was due as of June 30; and for which payment will be made subsequent to June 30.

The "Other Liabilities" balance under the Fiduciary Fund Type – Pension Trust Funds - includes \$120,464,904 for the Vermont State Retirement Fund, \$14,344,147 for the Vermont Teachers' Retirement Fund, \$23,122,499 for the Vermont Municipal Employees' Retirement Fund, and \$2,004,375 to the Single Investment Deposit Account. These figures represent amounts due for securities purchased prior to June 30, 2001 but which were paid subsequent to June 30, 2001.

J. Accrued Liabilities:

Accrued liabilities consist of employee wages and related fringe benefit accruals earned as of June 30 but paid subsequent to June 30, calculated using the rate of pay in effect on June 30, 2001. Retainage payable consists of portions of progress payment amounts due to contractors that are being withheld and which will be paid by the State to the contractors upon final completion and acceptance of the contracted item or service.

K. Tax Refunds:

Tax refunds primarily represent amounts owed by the State to taxpayers because of overpayment of their 2000 calendar year and first and second quarter 2001 calendar year tax liabilities. Tax refunds payable, which reduce respective tax revenues, are accrued to the extent they are measurable based on payments and estimates. The amount of personal income tax refunds payable is comprised of estimates of overpayments of the first and second calendar quarters of 2001 tax liability and payments of 2000 calendar and prior year refunds. The remaining portion of tax refunds payable is comprised of payments made subsequent to the end of the fiscal year and estimates of the refund liability.

L. Reserve for Debt Service:

The General Fund reserved balance of \$87,993 at June 30, 2001 is comprised of the following:

1. During fiscal year 1993, the State initiated a lawsuit to recover costs associated with asbestos removal. A settlement agreement between the contractor and State was reached which has resulted in net proceeds of \$1,734,543 being credited to and reserved in the General Fund to meet future debt service obligations associated with the issuance of bonds relating to asbestos removal. The reserved amount is reduced annually through fiscal year 2009 in proportion to the repayment schedule of the bonds issued to refinance the asbestos removal. Public Act 178 of 1996 authorized the use of \$860,874 of these funds in fiscal year 1996. The remaining reserved balance at June 30, 2001 is \$87,993

M. Reserve for Human Services Caseload Management:

The Reserve for Human Services Caseload Management, established pursuant to Title 32 of the Vermont Statutes Annotated, Section 308b(a), was created to be available for appropriation to meet caseload-related needs at the Agency of Human Services. The Secretary of Administration may transfer to the reserve any general fund unexpended appropriations directly attributable to Aid to Needy Families with Children (ANFC) caseload reductions and the effective management of related federal receipts. During fiscal year 2001, \$2,000,000 was transferred to the reserve, bringing the reserve balance to \$18,048,618 at June 30, 2001.

N. Reserve for General Fund Surplus:

The Reserve for General Fund Surplus was established pursuant to Public Act 147 of 1998, Section 277(5) as amended by Public Act 1 of 1999, Section 88. The reserve is to be credited with the budgetary based surplus for the year ended June 30, 2001, as determined by the Commissioner of Finance and Management. The reserve shall not be expended except by specific appropriation of the general assembly. The reserve balance at June 30, 2001 is \$4,347,360

O. Compensated Employee Absences:

Compensated absences include accumulated unpaid vacation, compensatory time, and personal leave credits. Liabilities related to proprietary fund types are recorded in the fund whereas compensated absences related to governmental funds are recorded in the General Long Term Debt Account Group.

Classified state employees may accrue vacation leave based on the number of years employed up to a maximum rate of 24-days a year, but may accumulate no more than a maximum of 45 days. At June 30, 2001, the State has a liability for employees' earned vacation credits totaling approximately \$21,425,987 of which \$20,434,836 was applicable to the governmental funds and which will be liquidated in future periods either as salary payments as vacation leave is taken or by cash payment upon termination of employment.

The State also has a personal leave and compensatory time total liability of approximately \$4,370,874 at June 30, 2001 of which \$4,191,158 was applicable to the governmental funds and which accumulates as earned by employees.

Employees have also earned sick leave credits that may only be liquidated if and when sickness or injury is incurred and which, therefore, do not represent a liability of the State. Employees accrue sick leave at a maximum rate of 21 days a year. There is no limit on the total accumulation of earned sick leave days. The accumulated amount of unused sick leave at June 30, 2001 is approximately \$106,967,599 for all governmental funds.

The above amounts are calculated based on state employees' pay rates at June 30, 2001.

P. Interfund Transactions:

1. Interfund Loans: Short-term loans between funds outstanding at fiscal year-end for things such as cash overdrafts are recorded as Interfund Receivables/Payables. Advances To/From Other Funds represent long term interfund loans receivable and payable.
2. Reimbursements: Reimbursements result when one fund makes an expenditure/expense for a second fund when that expenditure or expense is properly applicable to the second fund. Reimbursement transactions reduce expenditures in the reimbursed fund and increase expenditures/expenses in the reimbursing fund.
3. Quasi-external Transactions: These transactions occur between two governmental funds that would be accounted for as revenue and expenditures/expenses as if they occurred between a government entity and a private sector entity.
4. Residual Equity Transfers: These transfers are defined as nonrecurring and non-routine transfers of equity between two funds.
5. Operating Transfers: These transfers encompass all types of transfers, except for the residual equity transfers, and are primarily routine transfers of appropriation resources between funds. Operating transfers are not revenue, expenditures, or expenses and are classified as "Other Funding Sources (Uses)" in the operating statements of the

Governmental funds and in a separate subsection before net income in the Proprietary fund types.

Q. Prepaid Expenses:

In the Governmental Type Funds, all purchases are recorded as expenditures when paid. In the Proprietary Funds, Non-expendable Trust Funds, and Pension Trust Funds certain payments reflect costs applicable to future accounting periods and are recorded as prepaid items.

R. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

S. Reclassifications:

Certain amounts in prior year financial statements have been reclassified to conform to the current year presentation.

T. Total Columns on Combined Statements:

Total Columns on the accompanying combined statements are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns does not portray present financial position or operating results nor does it reflect data comparable to a consolidation. Interfund transactions have not been eliminated.

Note 2: DEFICIT FUND BALANCES/RETAINED EARNINGS:

The following individual funds have deficit Fund Balances/Retained Earnings at June 30, 2001:

Enterprise Funds:

- Industrial Homework Office Fund: Although this fund has deficit retained earnings of \$63,762 at June 30, 2001, it does not have a negative fund equity position at that date.
- Vermont Life Magazine Fund: Although this fund has deficit retained earnings of \$556,452 at June 30, 2001, it does not have a negative fund equity position at that date.
- Federal Surplus Property Fund: Although this fund has a deficit retained earnings of \$124,217 at June 30, 2001, it has a positive fund equity position of \$199,498 at that date. This is compared to a negative fund equity position of \$60,125 at June 30, 2000.

Internal Service Funds:

- State Liability Insurance Fund: This fund has deficit retained earnings of \$191,892 at June 30, 2001. The State intends to eliminate this deficit through a rate adjustment.
- Workers' Compensation Fund: This fund has a deficit retained earnings of \$3,305,614 at June 30, 2001. The State will eliminate this deficit through a rate adjustment.
- Property Management Fund: This fund has a deficit retained earnings of \$2,065,079, which is the result of depreciating three buildings over 50 years which were purchased with 20 year capital bonds. This deficit is expected to increase into the near future and then will reverse and become positive once the bonds are amortized and the depreciation costs continue to be recovered.
- GOVnet Fund: This fund has a deficit retained earnings of \$119,095 at June 30, 2001, a reduction of \$57,986 as compared to the June 30, 2000 deficit. The State will continue to adjust the billing rates for GOVnet services to eliminate this deficit.

Note 3: CASH, CASH EQUIVALENTS, AND INVESTMENTS:

The State pools substantially all cash and investments of governmental, proprietary, and agency funds, except those which are maintained separately in accordance with legal restrictions. Separate cash and investment accounts are generally maintained for pension funds and capital projects funds. Each fund's equity share of the total pooled cash and investments and restricted assets are included on the accompanying balance sheets.

**Schedule of Deposit and Investment Disclosures
June 30, 2001
Combined Balance Sheet**

Cash and Cash Equivalents	\$ 1,070,368,299
Investments	2,806,375,650

Cash on Hand	739,995
U.S. Treasury - Unemployment Account	<u>310,011,564</u>
Total	\$ <u>3,881,177,133</u>

DEPOSITS:

The following statutory requirement and Treasury Department policy have been implemented to minimize risk associated with deposits. 32 VSA Sec. 431 establishes the requirements the State Treasurer must adhere to when depositing public monies. The statute sets parameters regarding the amount of funds that may be on deposit with any particular institution at any one time. Although not statutorily required, the State Treasurer requires State cash deposits to be collateralized with either United States Treasury securities or Vermont Municipal securities or a combination of same with a current market value equal to at least 102% of the amount of the deposit.

Deposits are classified as to credit risk by the three categories described below:

- Category 1 Fully insured or collateralized with securities held by the State or its agent in the State's name.
- Category 2 Collateralized with securities held by the pledging institution's trust department or its agent in the State's name.
- Category 3 Uncollateralized.

At June 30, 2001, the State's deposits, listed by credit risk category, are shown in the following schedule:

	Categories			Bank Balance	Reported Amount
	1	2	3		
Primary Government	\$ 5,282,155	\$ 14,498,673	\$ 86,336,184	\$ 106,117,012	\$ 86,455,201
Component Units	<u>1,755,625</u>	<u>12,138,025</u>	<u>335,475,105</u>	<u>349,368,755</u>	<u>344,238,644</u>
Total	\$ <u>7,037,780</u>	\$ <u>26,636,698</u>	\$ <u>421,811,289</u>	\$ <u>455,485,767</u>	\$ <u>430,693,845</u>

INVESTMENTS:

Effective July 1, 1997, the State adopted provisions of GASB No.31, "Accounting and Reporting for Certain Investments and for External Investment Pools." GASB No.31 requires investments to be reported at fair value in the balance sheet.

The U.S. Treasury - unemployment account balance of \$310,011,564 at June 30, 2001 is on deposit with the U.S.Treasury and is not categorized.

The disclosure of carrying (book) amounts by type of investment are classified in the following three categories of credit risk:

1. Insured, registered or securities held by the State or its agent in the State's name.
2. Uninsured and unregistered, with securities held by counterparty's Trust Department or agent in the State's name.
3. Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent, but not in the State's name.

32 VSA 433 defines the parameters the Treasurer must adhere to when investing State monies. Types of investments the Treasurer may utilize include obligations of the United States, its agencies and instrumentalities, and any repurchase agreements whose underlying collateral consists of such obligations; certificates of deposit issued by banks and savings and loan associations approved by the Treasurer; prime banker acceptances; prime commercial paper; tax exempt securities; and domestic money market funds. The boards overseeing the various pension funds have adopted their own sets of investment guidelines.

At June 30, 2001 the State's investments, categorized by the credit risk categories listed above, are shown in the following schedule:

	INVESTMENTS			Carrying Amount
	Categories			
	1	2	3	
Primary Government

Securities Lending Transactions

State statutes and boards of trustees policies permit the State of Vermont Treasurer's office to use investments of the three pension plans to enter into securities lending transactions - loans of securities to broker dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future. The pension plans' securities dealer, State Street Bank and Trust Company (State Street), is the agent in lending the plans' domestic securities for cash collateral of 102% and international securities for cash collateral of 105%. At year-end the pension plans have no credit risk exposure to borrowers because the amounts the plans owe the borrowers exceed the amounts the borrowers owe the plans. The lending agent indemnified Vermont by agreeing to purchase replacement securities or to return cash collateral in the event borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay Vermont for income distributions by the securities' issuers while the securities were on loan. There were no losses during the Fiscal Year resulting from a default of the borrowers or State Street.

During the fiscal year, Vermont and the borrowers maintained the right to terminate all securities loans on demand. The cash collateral received on each loan was invested in collective investment pools with an average duration of 73 days at June 30, 2001. Because loans were terminable at will, their duration did not generally match the duration of the investments made with the cash collateral. On June 30, 2001, the collateral held and the market value of the securities on loan for Vermont was \$214,724,461 and \$209,750,675, respectively.

Below are the statutory references that allow the pension plans to participate in the securities lending program.

<u>Statute Reference</u>	<u>Retirement Plan</u>

Total	<u>\$ 539,751</u>	<u>\$ 19,816,878</u>

Note 5: RETIREMENT PLANS AND OTHER POST EMPLOYMENT BENEFITS:

A. Retirement Plan Descriptions

Defined Benefit Retirement Plans

In accordance with State Statutes, the State Treasurer and the individual retirement systems' Board of Trustees administer the State's three defined benefit pension plans and one defined contribution plan. These systems are considered part of the State's reporting entity and are included in the accompanying financial statements as pension trust funds in the Trust and Agency fund type. There are no separate stand-alone financial statements issued for these plans.

The Vermont State Retirement System (VSRS) (3 VSA 455) is a single-employer public employee defined benefit retirement system which covers substantially all general state employees and State Police, except employees hired in a temporary capacity. Membership in the system is a condition of employment. The membership consists of:

- (1) employees who belonged to the original contributory system (Groups A and D with a contribution rate of 5.1% of payroll and Group C with a contribution rate of 6.28% of payroll)
- (2) vested members of the non-contributory system (Group E)
- (3) members of the new contributory system (Group F) who contribute at a rate of 3.35% of payroll.

The State Teachers' Retirement System (STRS) (16 VSA 1931) is a cost sharing multiple-employer public employee retirement system. It covers nearly all public day school and nonsectarian private high school teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State that are controlled by the state board of education. Membership in the system for those covered classes is a condition of employment. The membership is made up of:

- (1) contributory members from the old system (Group A) who contribute at a rate of 5.5%
- (2) vested members of the non-contributory system (Group B)
- (3) members of a new contributory system who contribute at a rate of 3.4% of covered payroll (Group C).

The State appropriates funding for pension costs associated with the above two plans. In fiscal years prior to 1982, both systems were solely contributory. Under legislation effective July 1, 1981, Vermont State employees and State teachers could elect to transfer their current memberships from a contributory to a non-contributory membership class (see Note 5 E. Single Deposit Investment Account). However, in 1990, the legislature again made both systems contributory effective July 1, 1990 for the STRS and January 1, 1991 for the VSRS. The State's contribution to each system is based on percentage rates of each member's annual earnable compensation. These rates include a "normal contribution" rate and an "accrued liability contribution" rate and are calculated based upon the liabilities of each system as determined by actuarial valuations. Present law provides that each system's unfunded accrued liability will be amortized over 30 years. This amortization began July 1, 1988 and has 17 years remaining (the liability will be fully amortized in fiscal year 2018).

The Vermont Municipal Employees Retirement System (MERS) (24 VSA 1091) is a cost sharing multiple-employer public employees retirement system that is administered by the State Treasurer and its Board of Trustees. It is designed for school district and other municipal

employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds. An employee of any employer that becomes affiliated with the system may join at that time or at any time thereafter. Any employee hired subsequent to the effective participation date of their employers is required to join the system upon the completion of three years of continuous service.

Prior to July 1, 1987, the State was statutorily responsible for contributions to the MERS's pension accumulation fund. Effective July 1, 1987 and thereafter, all payments to the system's pension accumulation fund are supported entirely by employer (municipal) and employee contributions. Employers make quarterly payments into the pension accumulation fund. These payments are percentages of annual earnable compensation for each membership group and consist of a "normal" and an "accrued liability" portion. The percentage rates of such contributions are fixed on the basis of the liabilities of the system pursuant to actuarial evaluations.

Defined Contribution Retirement Plans

In accordance with Title 3 of the Vermont Statutes Annotated Section 500, the State established an optional defined contribution plan for exempt state employees effective January 1, 1999. The Vermont State Defined Contribution Plan is reported in the Pension Trust Funds.

The actuarial calculations were performed on a cost-neutral basis so that the accrued balances and liabilities were equivalent. 374 exempt employees representing approximately 45% of the eligible employees elected to transfer to the defined contribution plan. Assets totaling \$21 million were transferred from the defined benefit plan to the defined contribution plan on January 4, 1999 as a result of the election. As the attendant decrease in liabilities in the defined benefit plan was equal to \$21 million, there was no material effect on the financial health of the defined benefit system resulting from the transfer. Exempt employees hired after January 1, 1999 have a one-time opportunity to elect either the defined benefit or defined contribution plan.

Employees are required to contribute at the rate equivalent to the contribution rate for Group F members of the VSRS. The State is required to contribute, to each employee's account, at the rate of 7% of the employee's compensation for each payroll period. An employee becomes vested in the plan after completion of 23 months of creditable service as a State employee. For the fiscal year ended June 30, 2001, plan member contributions were \$534,168 and State employer contributions were \$1,310,089. As of June 30, 2001, the Vermont State Defined Contribution Plan's net assets totaled \$27,937,043 and there were 520 participants.

The Legislature granted authority to the Vermont Municipal Employees' Retirement System's Board of Trustees to establish a defined contribution plan that could be offered in lieu of the defined benefit plans currently available under the Municipal Retirement System. The board implemented a defined contribution plan that became available to new members effective July 1, 2000. *The defined contribution plan was offered by municipal employers to one or more groups of their eligible employees.* Once offered by the employer, each eligible employee was required to make an election to participate. Employees participating in one of the municipal defined benefit plans who elected to participate in the defined contribution plan had the July 1, 2001 actuarial value of their accrued defined benefit plan transferred to the defined contribution plan. Employers that did not offer the defined contribution plan to their employees as of December 31, 1999 will have an opportunity to do so no later than December 31 of any subsequent year with the transfer effective the following year's July 1.

Participating municipal employees and their employers are required to contribute at the rate of 5%. Employees become vested in the plan after 12 months of service. For fiscal year ending June 30, 2001, plan participants and the municipalities each contributed \$281,482 while members transferred \$4,098,318 into the defined contribution plan from other pension plans. As

of June 30, 2001, the Municipal Employees Defined Contribution Plan's net assets at fair value totaled \$4,062,146 and there were 294 participants.

Copies of each individual defined benefit retirement plan's annual actuarial valuation report, information describing each defined benefit plan's provisions including vesting requirements, benefits provided, post retirement adjustments, etc., and information relating to the two defined contribution plans is available for inspection at the Office of Retirement and Social Security, 133 State Street, Montpelier, Vermont 05633-6901.

B. Plan Membership

At June 30, 2001, VSRS, STRS, and MERS membership consisted of:

	<u>VSRS</u>	<u>STRS</u>	<u>MERS</u>
Retirees and beneficiaries of deceased retirees currently receiving benefits	3,563	3,812	856
Terminated employees entitled to benefits but not yet receiving them (vested)	1,626	3,149	1,101
Active employees:			
Vested	5,149	7,388	2,125
Non-vested	2,438	2,876	2,689
Total active employees	<u>7,587</u>	<u>10,264</u>	<u>4,814</u>
Total participants	<u>12,776</u>	<u>17,225</u>	<u>6,771</u>

C. Schedules of Employer Contributions and Funding Progress

Below are listed the various actuarial methods and significant assumptions used to determine the annual required contributions.

	<u>VSRS</u>	<u>STRS</u>	<u>MERS</u>
Valuation date	06/30/01	06/30/01	07/01/01
Actuarial cost method	Entry age normal cost with frozen initial liability	Entry age normal cost with frozen initial liability	Projected benefit cost method
Amortization method	Level percentage of payroll	Level percentage of payroll	level percentage of payroll
Remaining amortization period	17 years	17 years	17 years
Asset valuation method	Actuarial value of assets using a five year smoothing technique	Actuarial value of assets using a five year smoothing technique	Actuarial value of assets using a five year smoothing technique
<u>Actuarial assumptions</u>			
Investment rate of return *	8.5%	8.5%	8.0%
Projected salary increases*	4.5%-7.8%	4.9%-8.9%	5.6%
Cost-of-living adjustments	2.25%-4.5%	2%-4%	2%-2.3%
* Includes inflation at 4.6%			
<u>Post Retirement Adjustments</u>			
allowances in payment for at least one year adjusted for cost of living based on CPI but not in excess of percentage indicated	Groups A, C,D - 5%	Group A - 5%	N/A
allowances in payment for at least one year adjusted for cost of living based on one-half of CPI but not in excess of percentage indicated	Group F - 5%	Group C - 5%	Group A - 2% Group B,C - 3%

Schedule Of Employer Contributions

Year Ended 6/30	VSRS		STRS		MERS	
	Annual Required Contribution	Percentage Contributed	Annual Required Contribution	Percentage Contributed	Annual Required Contribution	Percentage Contributed

Information for years prior to 1992 is not available.

D. State of Vermont's Annual Pension Cost and Net Pension Obligation

The State's annual pension cost and net pension obligation (NPO) to the Vermont State Retirement System and the State Teachers' Retirement System at June 30, 2001 were as follows:

	<u>VSRS</u>	<u>STRS</u>
Annual Required Contribution (ARC)	\$19,679,398	\$20,970,278
Interest on NPO	3,240,863	7,329,216
Adjustment to ARC	<u>(3,344,544)</u>	<u>(8,412,300)</u>
Annual Pension Cost (APC)	\$19,575,717	\$19,887,194
Employer Contribution Made	<u>19,548,598</u>	<u>19,143,827</u>
Increase (Decrease) in NPO	\$27,119	\$743,367
NPO - Beginning of Year	<u>38,127,804</u>	<u>86,226,076</u>
NPO - End of Year	<u>\$38,154,923</u>	<u>\$86,969,443</u>
Percentage of APC contributed	99.86%	96.26%

E. Single Deposit Investment Account

Public Act 41 of the 1981 Session authorized a new Group B non-contributory plan within the State Teachers Retirement System (STRS) and a new Group E non-contributory plan within the Vermont State Retirement System (VSRS). The Single Deposit Investment Account (SDIA), a non-contributory defined contribution plan reported in the Agency Funds, was also established according to the provisions of this Act.

The STRS's members in the Group A contributory plan could elect to either remain in the Group A plan or transfer to the new Group B non-contributory plan. Group A members electing to transfer to the Group B plan had their choice between the following three options:

- (1) have both their accumulated employee contributions and accumulated interest returned to them; or
- (2) have their accumulated contributions returned to them and only their accumulated interest invested by the retirement board in the SDIA; or
- (3) have both their accumulated employee contributions and accumulated interest invested by the retirement board in the SDIA.

The VSRS's members in the Group A contributory plan could elect to either remain in the Group A plan or transfer to the new Group E non-contributory plan. Group A members electing to transfer to the Group B plan had their choice between the following three options:

- (1) have both their accumulated employee contributions and accumulated interest returned to them;
- (2) have their accumulated contributions returned to them and only their accumulated interest invested by the the retirement board in the SDIA; or
- (3) have both their accumulated employee contributions and accumulated interest invested by the retirement board in the SDIA.

No additional contributions could be made to the SDIA beyond those described above. The SDIA funds are not available to the members until they retire or terminate employment. At June 30, 2001, there were 1,667 STRS members and 1,293 VSRS members, with total assets of \$104,718,218, in the Single Deposit Investment Account Fund.

F. Other Post Employment Benefits

The State offers both post employment medical insurance and life insurance benefits in addition to providing pension benefits.

Employees retiring for any reason (disability, early, or normal) including the State Police, are entitled to receive medical coverage for themselves and their dependents over the lifetime of the retiree, with 20% of the cost to be paid by the retiree. If the retiree chooses the joint and survivor pension option, and predeceases his or her spouse, the medical benefits also continue for the spouse, along with the pension. However, generally, the surviving spouse must pay 100% of the cost.

In the case of life insurance, if a state employee retires or terminates due to disability prior to age 60, and proper documentation is approved by the life insurance company, full life insurance coverage will continue at the State's expense up to age 65. At that time, if the retiree has a total of 20 years or more of active and retired (while receiving disability) service, life insurance automatically changes to \$5,000 fully paid and 100% of the premium is paid by the State.

Note 6: FUND BALANCE RESERVES

Fund balance reserves are those portions of fund balance that are not appropriable for expenditure or that are legally segregated for a specific future use. Fund Balances reserved at June 30, 2001 are as follows.

Primary Government Funds	General	Special Revenue	Capital Projects	Trust and Agency
Reserved for:				
Encumbrances.....	\$ 2,058,986	\$ 1,690,406	\$ 3,781,371	\$
Budget Stabilization.....	43,019,120	29,881,575		
Debt Service.....	87,993			
Endowments, Claims & Distributions.....				31,961,572
Employee Retirement Benefits.....				2,408,028,810
Unemployment Compensation Benefits.....				316,719,440
Contingencies.....				228,264
Advances and Notes Receivable.....	18,612,388			
General Fund Surplus.....	4,347,360			
Human Services Caseload Management.....	18,048,618			
Total Primary Government Fund Balances Reserved.....	\$ 86,174,465	\$ 31,571,981	\$ 3,781,371	\$ 2,756,938,086
Discretely Presented Component Units		Vermont State Colleges	University of Vermont	
Reserved for:	Other			
Encumbrances.....	\$ 19,296,552	\$	\$ 2,576,000	
Debt Service.....			6,576,000	
Endowments, Claims & Distributions.....		12,281,300	219,568,000	
Contingencies.....				
Total Component Units Fund Balances Reserved.....	\$ 19,296,552	\$ 12,281,300	\$ 228,720,000	

Note 7: LEASE COMMITMENTS:

Operating Leases

The State is committed under various operating leases covering real property (land and buildings) and equipment. Although lease terms vary, certain leases continue subject to appropriation by the General Assembly. If continuation is reasonably assured, leases requiring appropriation by the General Assembly are considered non-cancelable leases for financial reporting purposes.

The following is a summary of the estimated future minimum rental commitments under operating leases for real property and equipment:

Fiscal Year	Non Cancelable Leases	Cancelable Leases	Primary Government Totals	Vermont State Colleges	University Of Vermont	Vermont Student Assistance Corporation	Total Reporting Entity
2002	\$ 4,416,408	\$ 268,627	\$ 4,685,035	\$1,513,181	\$919,632	\$628,000	\$ 7,745,848
2003	3,693,792		3,693,792	978,741		430,000	5,102,533
2004	2,956,025		2,956,025	736,546		165,000	3,857,571
2005	2,424,211		2,424,211	605,851			3,030,062
2006	1,619,036		1,619,036	491,493			2,110,529
Thereafter	4,113,350		4,113,350	1,054,760			5,168,110
Totals	\$19,222,822	\$ 268,627	\$19,491,449	\$5,380,572	\$919,632	\$1,223,000	\$27,014,653

Capital Leases

The future minimum lease obligation and the net present value of the minimum lease payments as of June 30, 2001 are as follows:

Fiscal Year	Vermont State Colleges	Total Reporting Entity
2002	\$86,939	\$86,939
2003	43,105	43,105
2004	34,338	34,338
2005	34,338	34,338
2006	20,028	20,028
Thereafter	0	0
Total Minimum Lease Payments	\$218,748	\$218,748
Less amount representing interest	(23,226)	(23,226)
Present value of minimum lease payments	<u>\$195,522</u>	<u>\$195,522</u>

Note 8: GENERAL OBLIGATION BONDS AND NOTES PAYABLE:

General obligation bonds and notes payable have been authorized and issued primarily to provide funds for acquisition and construction of capital facilities for higher education, public and mental health, correctional facilities, environmental conservation purposes, maintenance and construction of highways and assistance to municipalities for construction of water and sewage systems and local schools. Also, bonds have been authorized and issued to refund outstanding general obligation bonds.

Once authorized by the legislature, the State Treasurer, with the approval of the Governor, may issue general obligation bonds. Except for zero coupon capital appreciation bonds, the bonds are to be payable in substantially equal or diminishing amounts, the first such payment to be payable not later than five years after the date of the bonds, and the last such payment to be made no later than twenty years after the date of the bonds.

Changes in bond and note principal payable during fiscal year 2001 are summarized as follows:

	General Obligation Bonds
Balance July 1, 2000	\$ 527,299,605
Additions:	
Issuances	\$ 0
Accretions	<u>3,728,753</u>
Total	3,728,753
Deductions:	
Principal repayments	\$ <u>50,585,000</u>
Total	<u>(50,585,000)</u>
Balance June 30, 2001	\$ <u>480,443,358</u>

During fiscal years 1991, 1992, and 1994, the State issued zero coupon capital appreciation bonds. Zero coupon capital appreciation bonds are bonds issued at a discount to their face value. Instead of interest being paid on a periodic (i.e. semi-annual) basis, an increase in the principal due (accreted amount) is recognized on a regular basis. The total accreted amount at maturity will be the face value of the bonds.

On December 1, 1993, the State issued capital appreciation bonds with a maturity value of \$32,625,000 maturing on August 1 in the years 1999 through 2013. Proceeds from these bonds totaled \$17,987,640. At June 30, 2001, the accreted value of these bonds was \$20,443,958.

On October 30, 1991, capital appreciation bonds with a maturity value of \$20,575,000 were issued. These bonds mature on October 15 in the years 1996 through 2011. Proceeds from these bonds totaled \$9,999,837 and have an accreted value of \$10,159,752 at June 30, 2001.

During fiscal year 1991, capital appreciation bonds were issued with a maturity value of \$48,935,000 and are scheduled to mature on December 1 in the years 1995 through 2010. Proceeds from these bonds totaled \$19,310,002 and have an accreted value of \$28,949,648 at June 30, 2001.

Future general obligation debt service requirements at June 30, 2001 are as follows:

Fiscal Year	Current Interest		Capital	Total
	Bonds Principal	Bonds Interest	Appreciation Bonds	
2002	41,155,000	20,663,811	7,380,000	69,198,811
2003	40,650,000	18,552,201	8,020,000	67,222,201
2004	37,230,000	16,634,106	8,230,000	62,094,106
2005	34,065,000	14,883,407	7,400,000	56,348,407
2006	32,285,000	13,195,704	7,410,000	52,890,704
Thereafter	235,505,000	57,052,591	43,560,000	336,117,591
Totals	\$ 420,890,000	\$ 140,981,820	\$ 82,000,000	\$ 643,871,820

At June 30, 2001, there remained \$51,000,868 of authorized but unissued General Obligation Bonds.

* See following page for schedule of General Obligation Bonds outstanding at June 30, 2001.

Note 9: PRIOR YEARS' BOND REFUNDINGS:

During the fiscal years 1992, 1993, 1994, and 1998, the State of Vermont defeased "in-substance" certain general obligation bonds by issuing new bonds and by placing the proceeds of these new bonds in an irrevocable trust. These trust assets will be utilized to make all future debt service payments on the old bonds. Accordingly, these trust assets and the liability for the old (now defeased) bonds are not included in the State's financial statements. As of June 30, 2001, \$58,740,000 worth of defeased bonds remain outstanding.

General Obligation Bonds outstanding at June 30, 2001 are comprised of the following issues:

Date Issued	Date Series Matures	Interest Rates %	Amount of Original Issue	Maturity Value of Bonds Outstanding			
				Sources of Payments			Total
				General Fund	Transportation Fund	Special Fund	
General Obligation Current Interest Bonds:							
12/01/90	02/01/10	6.4 to 6.5	\$ 65,000,000	\$ 3,552,000	\$ 148,000	\$	\$ 3,700,000
10/01/91	08/01/04	4.7 to 6.0	23,040,000	2,375,000	110,000		2,485,000
02/01/92	02/01/12	5.0 to 7.5	49,285,000	3,420,000	1,480,000		4,900,000
08/01/92	08/01/08	3.0 to 5.75	71,280,000	31,310,000	2,095,000		33,405,000
08/01/93	02/01/12	3.0 to 5.0	58,415,000	48,680,000	5,380,000		54,060,000
10/15/93	04/15/08	3.7 to 6.6	85,000,000	49,406,500	2,593,500		52,000,000

Note 10: ACCOUNTING METHOD CHANGES AND FUND EQUITY RESTATEMENTS:

The beginning fund balance in the General Fund has decreased due to the reclassification of Vermont Veterans' Home to a discretely presented component unit.

The beginning fund balance in the Special Revenue Funds has decreased due to the net effect of the reclassification of Adaptive Equipment Loan Fund to an Enterprise Fund and the correction of a prior period error in the Universal Service Fund.

The Enterprise Funds' beginning retained earnings balance has increased due to the reclassification of the Adaptive Equipment Loan Fund and the Municipal Equipment Loan Fund from a Special Fund and an Internal Service Fund, respectively.

The beginning retained earnings in the Internal Service Funds has decreased due to the reclassification of the Municipal Equipment Loan Fund to an Enterprise Fund.

The Agency Funds' beginning Assets and Liabilities have decreased by \$533,735 due to the reclassification of the Vermont Veterans' Home to a discretely presented component unit.

The Component Units - Other retained earnings have increased due to the Vt Economic Development Authority's adoption of Governmental Accounting Standards Board Statement 33, and due to the reclassification of the Vermont Veterans' Home from primary government to a discretely presented component unit.

	Retained Earnings/Fund Balance/Net Assets, July 1	Reclassification of Fund	Change in accounting method	Correction of prior period error	Retained Earnings/Fund Balance/Net Assets, July 1, as restated
General Fund	\$ 169,140,895	\$ (425,877)	\$ -	\$ -	\$ 168,715,018

Vt Economic Development Authority	\$ 26,259,746	\$ -	\$ 2,609,895	\$ -	\$ 28,869,641
Vt Veterans' Home	\$ 0	\$ 555,970	\$ 5,241,301	\$ -	\$ 5,797,271

Note 11: SEGMENT INFORMATION FOR ENTERPRISE FUNDS:

The State reports seven enterprise funds relating to sales of lottery tickets, liquor, Vermont Life Magazine, and related products, industrial homework products, federal surplus property, adaptive equipment loans, and municipal equipment loans. Segment Information for the year ended June 30, 2001 is as follows:

	Vermont Lottery Commission	Liquor Control Fund	Vermont Life Magazine	Other Enterprise Funds	Total Enterprise Funds
Operating Revenues	\$ 81,240,420	\$ 31,713,114	\$ 2,506,525	\$ 332,748	\$ 115,792,807
Depreciation Expense	56,472	233,620	64,668	0	354,760
Operating Income (Loss)	16,392,627	381,044	(80,556)	19,577	16,712,692
Operating Transfers In (Out)	(16,950,084)	(327,000)	0	0	(17,277,084)
Net Income (Loss)	11,777	(444,186)	(51,480)	43,654	(440,235)
Property, Plant & Equipment					
Additions	98,031	197,804	23,751	0	319,586
Deletions	316,867	1,648,099	238,049	0	2,203,015

Total Assets	6,315,473	5,244,572	1,194,375	3,690,844	16,445,264
Total Equity	397,531	559,051	81,682	3,556,203	4,594,467

Note 12: CONTINGENT AND LIMITED LIABILITIES:

CONTINGENT LIABILITIES

Vermont Economic Development Authority:

In 1974, the General Assembly created the Vermont Industrial Development Authority, renamed it the Vermont Economic Development Authority ("VEDA" or the "Authority") in 1993; and transferred the functions and the responsibilities of the Vermont Industrial Building Authority, Industrial Park Authority, and the Vermont Industrial Aid Board to it. Each of these original entities was relegated to a particular segment of industrial development. The Authority was established as a body corporate and politic and a public instrumentality of the State. It is governed by a twelve member board which consists of the Secretary of Commerce & Community Development, the State Treasurer, the Commissioner of Agriculture, Food and Markets, and nine public members appointed by the Governor with the advice and consent of the Senate.

The Authority has the power to insure up to \$15 million of mortgages made by lenders for the purchase of land and construction of industrial building facilities in the State; to finance the purchase of machinery and equipment; and to provide working capital. The refinancing of existing mortgages is also possible under the act that created the Authority. As of June 30, 2001, the Authority had mortgage insurance contracts totaling \$4,250,148. The full faith and credit of the State is pledged to support these activities of the Authority.

The Authority is authorized to reimburse lenders participating in the Vermont Financial Access Program for losses incurred on loans that the lender registers with the Authority. The full faith and credit of the State is pledged in an amount equal to the reserve premium payment deposited by the participating lenders for each registered loan, with the aggregate amount of credit that may be pledged not to exceed \$2 million at any one time. The State's contingent liability at June 30, 2001 was \$873,549. The State's net cash contribution since inception is \$259,662.

Under provisions of the statutes governing VEDA, the State has loaned VEDA funds by purchasing its notes. The funds borrowed by VEDA were loaned to borrowers of VEDA in accordance with the purposes defined by the applicable statutes. On June 30, 1997, \$13,500,000 of then outstanding notes were restructured into a 20-year debt obligation to be paid to the State by VEDA at a rate of 4.55%. The repayment is to be made from the principal and interest cash flows of certain Subchapter 3 and Subchapter 5 loans. The debt is subordinate in all respects to the repayment of \$16,800,000 of taxable revenue bonds that were issued to create the leverage reserve fund noted below. As of June 30, 2001 there were \$10,400,000 of these bonds still outstanding. At June 30, 2001, there was \$13,116,783 still outstanding on the note. As part of the June 30, 1997 restructuring, it was agreed that \$5,500,000 in notes would be repaid to the State to the extent possible from the receipts of certain Subchapter 3 and Subchapter 5 loans and other real estate acquired through foreclosure not pledged as security for the taxable revenue bonds. At June 30, 2001, \$3,840,092 remained outstanding on these notes.

The 1999 General Assembly created the Vermont Agricultural Credit Corporation ("VACC") to be operated by the Authority. The VACC assumed all of the assets and liabilities of the Family Farm Debt Stabilization Program ("DSP") and the Agriculture Finance Program (AFP). These programs were previously administered by the Authority. In 1988, the DSP borrowed \$20,000,000 from a group of Vermont banks. A pledge of the full faith and credit of the State secured the repayment of the debt. In 1996, the authority borrowed an additional \$2,000,000 from a single Vermont bank, also secured by the pledge of the full faith and credit of the State. As of June 30, 2001, the Authority had \$2,472,171 outstanding on these obligations. The State Treasurer also holds \$2,500,000 in notes for the VACC that funded loans under the AFP and DSP. The notes were made in 1994 for a term of 20 years and carry an interest rate of 4.55%. As of June 30, 2001, the outstanding amount of these notes was \$1,700,000.

The Authority has established a commercial paper program to fund loans made under the Subchapter 3 and Subchapter 5 programs in an amount aggregating up to \$40 million. The Subchapter 3 program provides loans to local and regional development corporations while the Subchapter 5 program provides direct loans to businesses. The company's commercial paper for these purposes is supported by a direct-pay letter of credit from a bank. The direct-pay letter of credit is secured from various repayment sources, including a \$16 million leverage reserve fund held by a trustee and a debt service reserve pledge from the State of Vermont in an amount not to exceed \$25 million. This debt service pledge is based on a similar structure utilized by both the Vermont Municipal Bond Bank and the Vermont Housing Finance Agency. The amount of commercial paper outstanding under this program at June 30, 2001 was \$19,950,000.

Federal Grants:

The State receives federal grants that are subject to audit and review by federal grantor agencies. This could result in expenditure being disallowed under the terms of the grants. However, it is believed that required reimbursements resulting therefrom would not be material.

LIMITED LIABILITIES

Vermont Municipal Bond Bank:

The State has a limited liability for the Vermont Municipal Bond Bank. The Bank is required to maintain debt service reserve funds. Title 24, V.S.A., Section 4675 requires the State to provide annual appropriations to restore the reserve funds to the required minimum balance, if necessary. It has never been necessary for the State to appropriate money to the reserve fund and it is not anticipated that it will need to make an appropriation in the future.

Vermont Housing Finance Agency:

The State has a limited liability for the Vermont Housing Finance Agency. The Agency may create one or more debt service reserve funds in accordance with 10 V.S.A. Section 632. Annually, the Agency must report to the State the amount necessary to bring reserve fund balances up to the minimum required by statute. This sum so certified may be appropriated by the State. It has not been necessary for the State to appropriate money to maintain the reserve fund and it is not anticipated that any appropriation will have to be made.

Note 13: LITIGATION

The State, its agencies, officials and employees are defendants in numerous lawsuits involving funding for social welfare programs, civil rights actions, public education funding, breach of contract and negligence. The Attorney General is unable to predict the ultimate outcome of the majority of these suits, some of which seek recovery of monetary damages of unspecified amounts. However, based on information provided by the Attorney General, it is believed that any ultimate liability to the State resulting from these suits, not covered by various insurance policies, would not materially affect the State's overall financial condition.

Note 14: BUDGET STABILIZATION RESERVES

The 1993 Legislature amended action taken by the 1987 Legislature by repealing legislation creating the Budget Stabilization Trust Fund and created separate Budget Stabilization Reserves within both the General Fund and Transportation Fund. The Education Fund Budget Stabilization Reserve was created by the 1999 Legislature. These reserves were created to reduce the effects of annual variations in state revenues upon these funds by reserving certain surpluses of revenues.

The reserves balances will consist of any unreserved undesignated surplus at the close of the fiscal year, provided the balance in each fund's Budget Stabilization Reserve shall not exceed an amount equal to five percent of its appropriations for the prior fiscal year plus any additional amounts as may be authorized by the general assembly. Use of the reserve is limited to offsetting the respective fund's deficit at the close of a fiscal year. Pursuant to action taken by the Legislature, the Transportation Fund's Budget Stabilization Reserve at June 30, 2001 was \$8,882,450, the General Fund's Budget Stabilization Reserve was \$43,019,320 at June 30, 2001, and the Education Fund's Budget Stabilization Reserve at June 30, 2001 was \$20,999,125.

Note 15: JOINT VENTURE

The State of Vermont has entered into a Tri-State Lotto Compact with the States of New Hampshire and Maine for the purpose of operating a tri-state lottery. This lottery does not replace Vermont's individual lottery games

but is run in addition to the existing games. The Compact provided for the creation of a Tri-State Lottery Commission which is an interstate body, both corporate and politic, serving as a common agency of the party states and representing them both collectively and individually in the exercise of its powers and duties. The commission is composed of one member from each of the party states. Each state's lottery commission appoints one of its members to this position. The three-member commission annually elects a chairperson from among its members. The commission is empowered to operate and administer Tri-State Lotto and to promulgate rules and regulations governing the establishment and operation of the lotto. Tri-State Lotto tickets are sold in each of the party states and processed in a central location as determined by the commission. Fifty percent of the gross sales from each state are aggregated in a common prize pool, and operating costs are charged proportionally to each of the party states. The remaining revenues generated within each state remain in that particular state.

At June 24, 2001, the commission had total assets of \$246,453,152 and total liabilities of \$225,942,261. For the fiscal year ended June 24, 2001, the commission has operating revenues of \$80,673,221, interest income of \$747,425, commissions, fees, and bonus expenses of \$9,796,671, prize awards of \$40,168,307, and other operating expenses of \$4,627,536. During the fiscal year, the commission made operating transfers to member states of \$26,872,132, which includes \$1,994,973 transferred to Vermont.

Note 16: RISK MANAGEMENT

A. Worker's Compensation and Liability Risk Management

The Risk Management Division of the Department of Buildings and General Services administers all risk management for State government except for the Health and Life Insurance plans listed below. It is the policy of the State to minimize purchases of commercial insurance for most of the risks to which the State is exposed. The Risk Management Division sets aside assets and pays claims utilizing the following three Internal Service Funds:

- Worker's Compensation Self Insurance Fund
- State Liability Self Insurance Fund
- Risk Management- All Other Fund (used for the purchase of commercial insurance)

The Worker's Compensation Fund is required by state statute to insure all state governmental and quasi-governmental entity's employees upon request. The State has unlimited exposure to liability and has not purchased any stop-loss insurance to limit this exposure. The review of this liability including an actuarial evaluation of incurred but not reported claims (IBNR) is conducted annually. Claims, all of which are processed by Risk Management Division personnel, are audited annually by outside claims adjusters to ensure that claims' statistical information used to calculate the State's Worker's Compensation exposure is reliable. The contribution required to fully fund losses is calculated by an outside actuary. Allocation to each participating entity who has covered employees is done by the Risk Management Division, utilizing exposure and departmental experience factors.

The State Liability Insurance Fund covers both general, employment practices liability, discrimination, and auto liability risk. The coverage is comparable to standard private commercial policies. It offers coverage to the same group of participants as those covered by the Worker's Compensation plan above. Its exposure to risk in Vermont is subject to the Doctrine of Sovereign Immunity and is governed by Title 12 VSA 5601, etc while its exposure outside of Vermont is potentially unlimited. It is self-insured for the first \$250,000 of exposure and has purchased excess commercial insurance to cover the additional per occurrence exposure in amounts of up to \$1,000,000 in Vermont and \$10,000,000 outside of Vermont. A Third Party Administrator (TPA) administers all claims other than minor property damage claims which are administered by the division. The Risk Management Division calculates the contribution necessary to fund the coverage utilizing both an exposure rating basis and an experience rating factor for each participating entity. The liability loss projections and the claims processing data are audited annually by outside claims adjusters.

The Risk Management-All Other Fund provides insurance coverage through purchased commercial policies for risks not covered in the above funds or which are self assumed. This coverage provides insurance for state-owned real property, bonds for various categories of employees, robbery and burglary coverage for the Federal food stamp program, errors and omissions coverage for judges, and various other miscellaneous coverage. The State's liability exposure is limited to the amount of the various deductibles associated with the respective coverage. Premium charges from the various insurers plus a 5% surcharge to cover state administration costs are either assessed directly against the entity specifically requiring the coverage or apportioned among those entities receiving the benefits of the coverage. Entities eligible for coverage are the same as those listed above for the other funds.

B. Health Care and Life Insurance Plans

The Employee Benefits and Wellness (Benefits) Division of the Department of Personnel maintains medical, dental, life insurance, and employee assistance program plans for the benefit of current employees, retirees, ex-employees, legislators, and employees of outside groups which have been declared eligible to participate by statute.

The medical plan offerings in FY2001 included two Health Maintenance Organization (HMO) plans: the Mohawk Valley Plan (MVP) and the TVHP Blue Care. A self-funded indemnity fee-for-service (Choice Plus) plan is also offered. It is administered by Blue Cross/Blue Shield of Vermont. Participating employees share the premium cost of the plans with the State. The employees participating in all of these plans include all of the categories listed above.

The HMO plans are purchased fully insured plans in which the HMO's calculate the premiums based on community rates. The coverage available to the participants is basically unlimited but is administered under a managed care arrangement. The State bears no insurance risk for catastrophic occurrences or claims in excess of the capitated premium paid.

The Choice Plus plan provides medical benefits coverage with high dollar limitations. To limit the State's large claims exposure, the State has purchased stop-loss insurance. Premium amounts, shared between the employees and the State, are calculated by Benefits Division analyst and then reviewed by an outside actuary. The State's liability for "incurred but not yet reported" (IBNR) claims is calculated by an outside actuary and is based on the State's previous claims experience.

The self-funded State of Vermont Employee Dental Assistance Plan, which is administered by Northeast Delta Dental, provides up to \$1,000 regular dental care annually and up to \$1,750 lifetime for orthodontic care for each participant. These plan caps effectively limit the State's exposure to catastrophic loss so no stop-loss insurance has been purchased. The Benefits Division analyst, in consultation with the dental actuary of the plan's administrator, sets the premium rates. Participants include all mentioned above except for retirees and legislators.

The State of Vermont Employee Life Insurance Program consists of a Regular Life benefit and an Accidental Death and Dismemberment (AD&D) benefit, each of which provides coverage equal to twice a participant's base salary rounded down to the nearest \$100. Retirees who work for the State for at least twenty years and who have insurance at the time of retirement receive a retiree life benefit of \$5,000 with no AD&D coverage.

Both the Regular Life and AD&D are fully insured products where the carrier retains liability for all claims. Benefits Division personnel calculate the premium rates charged for both of these programs. Active employee's premium costs are shared between the State and the employees. Retired employees' premium costs are fully paid by the State. Of the above groups, only current employees, retired employees, and current members of outside groups are eligible to participate.

A flexible spending account is available to active employees only. This account allows pre-tax salary deduction to be used to pay for eligible medical and dependent care expenses.

An employee assistance program (EAP) was implemented in fiscal year 1999. This program assists employees and family members in addressing problems that impact on lives including family, psychological, stress, financial, drugs, alcoholism, and other issues. Only current state employees and their families may participate in this program. ETP, Inc manages this program and is paid a fee based on the number of employees who work for the State. It is expected to provide, among other things, up to five counseling sessions per case. No claim's costs, or other liabilities are incurred under this plan by the State.

Following is a table displaying three years' changes in the respective funds' claims liability amounts.

<u>Fund and Fiscal Year</u>	<u>Liability at Beginning of the Fiscal Year</u>	<u>Current FY Claims and Changes in Estimates</u>	<u>Current FY Claims Payments</u>	<u>Balance of Liability at End of Fiscal Year</u>

Note 17: BUDGET TO GAAP RECONCILIATION:

Since the presentation of financial data on a budgetary basis differs from that presented under generally accepted accounting principles, a schedule reconciling the fund balance on a budgetary basis to the GAAP fund balance at June 30, 2001 is presented below.

	<u>General Fund</u>	<u>All Special Revenue Funds</u>
Fund Balance - Budgetary basis	\$ 147,434,202	\$ 108,055,352
Basis of Accounting Differences:		
Loans and Notes Receivable	5,285,293	101,748,962
Taxes Receivable	97,805,228	8,745,769
Advances To Other Funds	323,700	
Other Receivables	3,123,274	10,152,301
Due From Other Funds	2,285,980	2,666,496
Due From Component Units	264,536	3,921,240
Due From Federal Government		103,036,279
Accounts Payable	(30,818,502)	(109,563,568)
Accrued Liabilities	(7,348,811)	(9,089,987)
Tax Refunds	(72,105,524)	
Due To Other Funds	(12,688)	(61,287)
Due To Other Governments		(409,661)
Due To Component Units	(1,085,254)	(900,000)
Retainage Payable	(427,356)	(2,757,713)
Deferred Revenue	27,516,471	(103,037,582)
Escrow Accounts		2,131,754
Blended Component Units - Cash		10,330,703
Cash on Hand	517,185	1,284,421
Total Fund Balance - GAAP Basis	<u>\$ 172,757,734</u>	<u>\$ 126,253,479</u>

Note 20: SUBSEQUENT EVENTS:

Debt Issuance

The State issued \$46,000,000 of 2001 Series A General Obligation Bonds, dated October 15, 2001. The State expects to use approximately \$14.2 million of the proceeds to restore cash in the treasury for earlier expenditures on capital projects and the remaining amount will be used for future capital projects. Interest rates on these bonds vary from 3.25% to 4.75%. Payments to the bondholders are scheduled to commence August 1, 2002 and terminate August 1, 2020.

The State also issued \$5,000,000 of 2001 Series B General Obligation Bonds, dated December 27, 2001. Approximately \$3.78 million of the proceeds will be used to restore cash previously expended for authorized capital projects and the remaining amount will be used for future capital projects. Interest rates on these bonds vary from 4.00% to 4.375%. Payments to the bondholders are scheduled to commence August 1, 2002 and terminate August 1, 2011.

STATE INDEBTEDNESS

State Indebtedness and Procedure for Authorization

The State has no constitutional or other limit on its power to issue obligations or incur indebtedness by borrowing only for public purposes. In 1989, the Institution Committees of the House and Senate recommended the creation of a Capital Debt Affordability Advisory Committee responsible for overseeing long-term capital planning for the State. The Committee was created by the 1990 General Assembly. Bonds authorized for a given fiscal year may, at the discretion of the State Treasurer with the approval of the Governor, be issued in the fiscal year or in subsequent fiscal years.

The State Constitution does not contain provisions requiring submission of the question of incurring indebtedness to a public referendum. The authorization and issuance of State debt, including the purpose, amount, and nature thereof, the method and the manner of the incurrence of such debt, the maturity and of repayment thereof, and other related matters are statutory. The State's Public Improvement bonds and State's Transportation and Highway bonds are paid respectively from the State's General Fund and Transportation Fund.

Pursuant to various appropriation acts, the State has authorized and issued general obligation bonds for a variety of projects or purposes. Each appropriation act usually specifies projects or purposes and the amount of the General Fund or Transportation Fund bonds to be issued, and provides that General Fund or Transportation Fund bonds shall be issued in accordance with the Debts and Claims provisions of the General Obligation Bond Law.

Pursuant to the Refunding Bond Act, the State has authorized the issuance of general obligation bonds to refund or to advance refund all or any portion of one or more issues of outstanding general obligation bonds. Most provisions of the General Obligation Bond Law apply to the issuance of such refunding bonds.

In general, the State has borrowed money by issuing general obligation bonds and notes for the payment of which the full faith and credit of the State are pledged. The State, however, also has established certain statewide authorities which have the power to issue revenue bonds and to incur, under certain circumstances, indebtedness for which the State has contingent or limited liability.

There are no State constitutional provisions limiting the power of the General Assembly to impose any tax on property or income in order to pay debt service on general obligation indebtedness. There are also no constitutional provisions limiting the power of the General Assembly to enact liens on or pledges of State revenues or taxes or the establishment of priorities, for payment of such debt service. There are no express statutory provisions establishing any priorities in favor of holders of general obligation indebtedness over other valid claims against the State.

The State has never defaulted on the punctual payment of principal or interest on any general obligation indebtedness and has never attempted to prevent or delay such required payments.

Debt Statement

The following table sets forth as of the dates indicated the outstanding general obligation bonded indebtedness, Contingent Liabilities and Lease Purchase Obligations of the State. For the first time, the net tax support for the Vermont Education and Health Buildings Finance Agency Revenue Bonds (Vermont Council of Developmental Mental Health Services Acquisition Program) Series 1999A and Series 1999B that were sold during fiscal year 1999. The Series 1999A bonds are tax-exempt obligations issued in the initial par amount of \$7,125,000 and the Series 1999B bonds are taxable obligations in the initial par amount of \$385,000. The State provides approximately 80% financial support for the Program.

PROPERTY VALUES AND TAXES IN VERMONT
Last Ten Fiscal Years

Property Valuation

From 1987 to 1992, the State's property values were equalized annually on January 1 for property values as of the previous calendar year by the Vermont Tax Department, Division of Property Valuation and Review, for purposes of distributions to and assessments upon, municipalities. Prior to 1987 and during the years 1992 through 1996, values were equalized on an annual basis. With the passage of Act 60 of the 1997 Legislative session, the values will continue to be equalized on an annual basis which will make available more current data for the calculations of municipalities' school tax liabilities and school aid.

The following table sets forth an abbreviated history of property values and taxes in Vermont for the period April 1 to the present (in millions of dollars.)

Years	Equalized Grand List (a)	Grand List (b)	Total Taxes (c)	School Taxes (d)	Total Effective Tax Rate (e)	School Effective Tax Rate (f)
2001	\$ 429.3	\$ 386.5	\$ 869.6	\$ 621.3	2.05	1.50
2000	404.9	375.4	816.0	580.4	2.06	1.50

According to the latest data from the U.S. Bureau of the Census (March 2000) Vermont population has a significantly higher level of educational attainment than the U.S. population as a whole. The table below shows that a total of 90% of Vermont's residents aged 25 years and over have completed a high school education, a level which ranks Vermont significantly above the 84% that have done so nationally. In addition, these data also show that more than 28.8% of Vermont residents in that same age category have received a four-year college degree. That percentage compares favorably to the 26% of residents aged 25 years and older who have received such a 4-year degree nationally.

**Educational Attainment Vermont and U.S.
Persons Aged 25 Years and Over
As of March 2000**

Level of Education	Percent of Vermont Population	Rank in U.S.	Percent of U.S. Population
HIGH SCHOOL:			
High School Graduate or More	90.0%	6	84.0%
COLLEGE:			
Bachelor's Degree or More	28.8%	7	26.0%

SOURCE: Bureau of the Census, Educational Attainment in the U.S., Current Population Report, March 2000

An update of 1990 Census data for 1996 also indicate that Vermont's population is primarily rural. A total of 72.3% of the state's population lived outside of the state's single metropolitan area - the second highest percentage among the 50 states (trailing only the state of Montana at 76.5%). Vermont's percentage was nearly 3 1/2 times the national average percentage of persons living outside of metropolitan areas (20.2%), and was roughly five times the average for the northeastern region.

INCOME AND SALES TAX RATES*
Last Ten Fiscal Years

Fiscal Year Ended June 30	Individual Income Tax (1)	Corporate Income Tax (2)	Retail Sales Tax	Meals & Rooms Tax (3)
2001	3.6% - 9.5%	7.0% - 9.75%	5%	9%
2000	24%	7.0% - 9.75%	5%	9%
1999	25%	7.0% - 9.75%	5%	9%
1998	25%	7.0% - 9.75%	5%	9%

(1) In 2001 the Individual Rate is calculated from tax tables designed to substantially maintain the State's tax rate that was in effect prior to the passage of the recently enacted federal tax cut.

Individual Rate stated is percentage of Federal Tax Due - had tiered rates from 1992 through 1993.

(2) Corporate Tax Rate is Graduated - Only the Upper and Lower Rates are shown- Minimum Corporate Tax amount = \$250.00.

(3) Beginning June, 1989, Alcoholic Beverages are taxed at 10% rate.

Largest Employers

The following table sets forth, as of December 2000, the ten largest employers in Vermont and the nature of their business, exclusive of the State itself and the University of Vermont.

Ranking of Vermont's Ten Largest Private Sector Employers
As of December 2000*
